Strike Among Boston Building
Laborers.

Congressional Proceedings.

WASHINGTON, June 17.—The Senate
has voted on the amendment reported
by the Finance Committee, striking
out of the House silver bill, the pro-
vision that the treasury notes issued
for silver "shall be legal tender in
payment of all debts, public and private."
The amendment was rejected—
yeas 14, nays 50—and the provision
remains in the bill.

The Senate has voted on the second
amendment, striking out the bullion
redemption clause. It was agreed to,
yeas 57, nays 7; so that the clause is
cut out of the bill.

The Senate voted on the third
amendment reported by the Finance
Committee, striking out the sixth sec-
tion for the free coinage of silver when
the market price shall be one dollar for
371 1/2 grains of pure silver. The
amendment was rejected, yeas 16,
nays 46; so the provision remains in
the bill.

The amendment fixing the limita-
tion of the act to ten years was re-
jected, yeas 4, nays 64.

On motion of Plumb the following
substitute for the first section of the
House bill was adopted, yeas 43, nays
24: That from and after the date of
the passage of this act, the unit of
value in the United States shall be the
dollar, and the same may be coined of
412 1/2 grains of standard silver, or
25 8/10 grains of standard gold, and
said coins shall be legal tender for all
debts, both public and private; that
thereafter any owner of silver or gold
bullion may deposit the same at any
mint of the United States to be formed
into standard dollars or bars for his
benefit, and without charge; but it
shall be lawful to refuse any deposit of
less value than \$100.

The House Silver bill was taken
up and Wolcott addressed the Senate.
The second conference on the anti-
Trust bill will reach an agreement by
which the bill is stripped of all
amendments added by the Senate and
House, and remains as it originally
passed the Senate.

At to-day's meeting of the Republi-
can members of the Senate Finance
Committee the Tariff bill was closed
against further amendments, and will
be reported to the Senate to-morrow.
The report of the minority will be
submitted later.

Baron Von Fredwiz, German Minis-
ter to Mexico, was married this morn-
ing to Lena Caldwell in the chapel
of the Catholic University of
America near this city. Bishop
Spaulding, of Peoria, Ill., celebrated
capital mass where the wedding took
place. The bride was the youngest
sister of Mary Gwendoline Caldwell.

An English Race-Suicided in
Prison.

LONDON, June 17.—Alloway won
the Prince of Wales stakes, Bluegreen
second, Hebrides third.
Armenian, the German dentist who
in November last shot and danger-
ously wounded Judge Bristow, of the
Court at Nottingham because the
Judge had given a decision against
him, committed suicide in prison.

Building Laborers' Strike.

Boston, June 17.—The building la-
borers of Boston, Somerville and Cam-
bridge, struck this morning. The bricklayers, who agreed
to support the strikers, will not receive
stock at the hands of non-union men.

Cordons of Troops.

MADRID, June 17.—The Govern-
ment has ordered cordons of troops to
be placed around all districts in the
province of Valencia infected with
cholera. Seven new cases have oc-
curred at Pnaba de Rugat.

European Prisoners Released.

CAIRO, June 17.—It is reported that
Mahdi has released all European pris-
oners.

No Decision Yet.

SARATOGA, June 17.—The Court of
Appeals did not hand down the deci-
sion to-day in the sugar trust case.

All Hope Gone.

DUNBAR (Pa.), June 17.—All night
long the rescuing parties remained at
the mouth of the mine at the Farm
Hill mine, but all efforts were fruit-
less, and when daylight broke they
were no nearer the unfortunate men
entombed in the burning mine; all
hope of rescuing the imprisoned
miners alive is abandoned.

Efforts were made to enter the burn-
ing stope through the Mahoney and
Ferguson mines, but it was found im-
possible to get near the men through
the former owing to the formation of
the stope and the Ferguson pit. The
air is so bad it is impossible to travel
any distance. It has been determined
to cut off all fresh air and let the mine
burn itself out.

At 10 o'clock this morning there was
very little change, except that the fire
was fiercer, the smoke blacker and the
despair of the survivors deeper than
ever before.

The early gray of morning only
found the rescuing parties driven far-
ther back from the death chamber.
They could not penetrate within 100
feet of the place they reached last night.

Early this morning Martin Markey,
the pit boss of the Anchor mines,
made a daring attempt to reach the
right driftings of the Farm Hill mines,
from the Mahoney entrance one and
one-half miles away across the hills.
He crawled over drifts and fallen slate
to within 100 yards of the fatal cham-
bers and sounded again and again,
listening for a response in vain.

The sight about the pit's mouth is
all the more pitiful because of the
twenty-four hours of anguish that has
rolled over the heads of the relatives
and friends of hundreds who have
stood at the mouth gazing at the col-
umns of smoke that grow thicker hour
by hour, indicating that the coal is
burning instead of the timbers and
roofing.

The mine inspector is making stren-
uous efforts to enter the Mahoney
drifts. The air-fan to furnish ventila-
tion to the mine will be placed in op-
eration this afternoon in the Ferguson
pit, as work has also been commenced
there.

Our Mary Married.

LONDON, June 17.—Mary Anderson
was married this morning to Antonio
Nevarro in the Roman Catholic
Church, St. Mary's, in Hampstead.
The wedding was strictly private.

Miss Anderson was driven from the
house of her stepfather, Dr. Griffin, to
the church in a closed carriage. The
curtains were drawn so no glimpse was
caught of the bride until she left the
carriage to enter the sanctuary. The
ceremony was performed in as quiet
and simple a manner as possible.
There was no choir; the only accom-
panying music was that of the organ.
Only the immediate friends of the
bride and groom were present.

The interior of the chapel was
decorated with a profusion of ferns,
palms and white flowers; on the
altar were twelve candles burning. At
11 o'clock the bridegroom, accompa-
nied by her brother, Alphonse, reached
St. Mary's in a cab. Both were in
mourning garb, in honor of their uncle
who died three weeks ago. A few
moments later a carriage containing
Miss Anderson's sister and step-
mother was driven up to the chapel.

This was followed by a carriage
containing Miss Anderson's own brother,
Joseph and wife (daughter of Lawrence
Barrett). The third carriage con-
tained Miss Anderson's mother and
stepfather, Dr. Griffin. Behind this
was Miss Anderson's carriage, with
her step-sister, Blanche Griffin, who
acted as bridesmaid. Miss Ander-
son's gown was white satin, heavily
brocaded. She carried a bouquet of
white roses, lilacs, stephanotis and
ferns, and above the bridal veil was
a tiny wreath of orange blossoms. Miss
Griffin was also dressed in white.

The ceremony was performed by Can-
non Purcell. Dr. Griffin gave the
bride away. After the marriage the
party drove to Dr. Griffin's, where
breakfast was served. The pair
started this afternoon for Venice,
where they will spend the honeymoon.

A Case of Suicide.

The body of C. Nagle, the young
German shoemaker who disappeared
from San Francisco on the 4th inst.,
was found on the bank of the Guada-
lup river, four miles from San Jose,
last Friday. There was evidence on
the ground of his having killed
himself.

Railroad Work.

Three camps, numbering 1,000 work-
men of the Northern Pacific, Union
Pacific and Fort Townsend Southern,
are at work on railroads in Olympia,
Wash. The latter camp is diving
18,000 piles at deep water on the west
side terminal.

Brakeman Killed.

In an accident on the Utah and
Northern Railroad, near Dillon, Mont.,
Saturday, W. C. Curtis, a brakeman,
was killed. The cars were badly
wrecked and 500 sheep were killed
outright and 200 or 300 more crippled
and subsequently killed by butchers.

Congressman Bartine and the
Carson Mint.

The Carson Mint.

WASHINGTON, June 16.—Bartine of
Nevada this morning introduced a bill
for the enlargement and improvement
of the melting and refining department
of the mint at Carson City. The bill
provides for an enlargement to double
the present capacity, or to such an ex-
tent as can be done by the expenditure
of \$15,000. The Secretary of the Treas-
ury is authorized to acquire for said
purpose, by purchase or condemnation
or otherwise, a block of land lying im-
mediately west, together with the in-
tervening street, if the same can be
acquired without cost from the authori-
ties of Carson City, the said block of
land to cost not more than \$3,500. For
the purpose of carrying out the provi-
sions of the act, \$3,500 is appropriated,
or so much thereof as may be neces-
sary.

Business Failure—A Celebration.

CHICAGO, June 17.—W. C. Albert-
son, a member of the Board of Trade,
was ordered closed out this morning.
Albertson's troubles are said to be due
to the operations of a dishonest clerk,
who, in the absence of Albertson,
bought a large amount of wheat. When
the market went against him yesterday
the clerk left the country.

The anniversary of the battle of
Bunker Hill was celebrated to-day by
the Junior Order of United American
Mechanics, which is holding a con-

took part in the parade, after which a

on the lake and was dedicated.

Bride, of Philadelphia, and Jimmy
Lynch, of New York, fought at Oak
Point this morning with skin tight
gloves for \$1,000 and an added purse
of \$500. Eighteen rounds were fought
when the affair broke up in a row and
the referee gave the fight to Lynch,
McBride being almost knocked out.

Palpitation of the Heart.

A French physician announces that
dressing or excessive palpitation of
the heart can always be arrested by
bending double, the head down and
the hands hanging, so as to produce a
temporary congestion of the upper
portion of the body. In nearly every
instance of nervous palpitation the
heart immediately resumes its natural
function. If the movements of res-
piration are arrested during this ac-
tion, the effect is still more rapid.

Geneva is said to be as expensive
a city for the unsophisticated visitor
as Paris or Wien.

Wherever Malaria Exists.

The Billous are its certain prey. In
intermittent and remittent fever, dumb
ague and ague cake, the liver is seriously
affected, and the blood contaminated with
bile. One of the chief reasons why Hos-
tetter's Stomach Bitters is such a sure de-
fense against chills and fever and every
form of malarial disease, is that it does
away with the biliousness to the disease,
by reforming irregularity of the biliary
organ in advance of the arrival of the
malaria-taint exists. There is no finer
fortifying preparation for those about visit-
ing or emigrating to a locality where the
malaria-taint exists. There is no certain
immunity from disease in an endemic or
epidemic form, to be secured by the use
of the average tonics and anti-spa-modics.
But where quinine fails the Bitters succeeds
both in preventing and curing. Moreover,
it removes every vestige of dyspepsia, and
overcomes constipation, rheumatism, in-
activity of the kidneys and bladder, and
tranquilizes and strengthens the nervous
system.

Old people suffer from disorders of
the urinary organs, and are always grati-
fied at the wonderful effects of Dr. J. H.
McLean's Liver and Kidney Balm in ban-
ishing their troubles. \$1.00 per bottle.

SOME of the more self-respecting journals of New York are manifesting a little sensitiveness at the frequent reference in outside papers to the failure of the Empire City to build a monument to Grant. The Commercial Advertiser explains that the monument was to be built by the entire country, and that New York was chosen because it is the largest city in the country. This is the refuge the journals of that city seek after the failure to collect in New York money to build the monument. It may be difficult to prove that there was an understanding that the entire country should contribute to a monument in New York, and equally difficult to prove that there was an understanding that New York should build it. But as the entire country does not show any disposition to contribute to a monument to be erected in New York, would it not be wise for the city to remove the reproach that rests upon it by liberal subscriptions to the monument fund. The insignificance of the sum required in comparison with the aggregate wealth of the millionaires of the city adds keenness to the refusal. There are a hundred men in New York who could build the monument and not miss the money it would cost.

COREA is passing through a crisis in her history. Japanese advisers report that the King of Corea has declined to accede to the request of the Chinese Minister in Seoul for a private audience, and that British men of war, in Japanese waters, were held in readiness with steam up under orders to be prepared to sail at a moment's notice. Rear-Admiral Belknap also expected to receive orders to sail for Corea. Chinese advisers intimate that the Tsungli Yamen had received at Peking a telegram from Russia to the effect that the latter country would protect Corea if necessary, even against China, a statement that naturally created great excitement in court circles.

THE Butte (Montana), Miner concludes an editorial on free coinage as follows: "Party lines should be obliterated, if necessary, in an issue so momentous, and let it be done now. The threatening mutterings of the Farmers' Alliance, with a membership of 2,000,000 voters, are already being heard, and it is time that the Neroc of Republicanism should lay aside the fiddle and turn on the hose, for Rome is in flames."

LARGE amounts of silver are said to be ready in Mexico for shipment to the United States, but awaiting action on the Silver bill. Ordinarily most of it would probably go to England. The passage of a bill for coining \$4,500,000 a month, with what is required for the arts, would create a demand for Mexican silver beyond what has hitherto been obtained from American smelting or Mexican silver lead ores.

IT is reported that Central American Conservatives will never permit the peaceful establishment of the Central American Union. The Pan-American Conference, with the prospective results in the way of trunk railroads, steamships, etc., is likely to shake up some old Latin-American Conservatives. They will have to get either on the wagon or out of the track.

SPAIN seems to have more than its share of cholera visitations. Probably the reason may be found in neglect of sanitation. The spread of the epidemic a few years ago was traced directly to use of the water of a river receiving the drainage of an infected locality.

THERE is a probability that Bismarck may soon take a seat in the Reichstag. Many would like to see him do so, if only to settle the question whether Bismarck is as big a man out of office as in it. It would also show what following he has among the German people.

According to the Odessa correspondent upward of 10,000 families of the colonial agricultural class have, during the last two years, emigrated from Southern Russia to America.

WHIMS OF THE WITS.

INSINUATING agent—"Can I see the lady of the house, please?" Bridget—"Yer luckin' at her, young man?"

DOLAN—"Sure an' I can't find the matches." O'Kelly—"Thin shrike a loight and luk for them, like a sensible person."

A WEALTHY and popular Austrian, recently lost 900,000 florins at baccarat, and now he has not money enough to even back a rat-crier in a pit.

"Yes," said the poet to the boy, as he stepped into the elevator, "I am going up. I want to feel once more in my life that I'm a rising poet."

"My wife is practicing with dumb-bells," proudly exclaimed a would-be athlete. "Do you find them any softer than flat-irons?" queried a wag who overheard the remark.

A LADY in court being asked her age, replied that she didn't know; she couldn't remember the exact hour she was born, and could only depend on hearsay. Hearsay is not evidence, and the matter was ruled out.

SOCIAL AGITATOR—"Isn't it a shame the way they work the help in this store? Fifteen hours a day and wages almost nothing?" Companion—"Why do you trade here?" Social Agitator—"Oh! they sell things so much cheaper!"

"Well, Mr. Hicks-Dolly," said the lawyer, "will you let me do for you to-day?" "I want you to sue the Bazoos for libel."

"Libel, eh? How did the Bazoos libel you?" "Oh, it was awful! They published my name without my hyphen."

A WOMAN in a theater recently became so excited by the machinations of the villain that she threw her bonnet at him. Everybody in the audience applauded, the gentleman who sat behind her being particularly enthusiastic in the expression of his approval.

A BOSTONIAN greatly annoyed by a woman in a room over him playing a piano persistently and wretchedly met her in the hall one day, with her three-year-old daughter, and remarked: "Your little daughter plays well for a child of her age; I hear her practicing every day."

AN amateur was showing some of her paintings to a professional, who advised her to send one to a coming exhibition. She objected, saying the work was not good enough. He replied, in a most reassuring manner: "Oh, yes, indeed; it will be accepted. There is lots of trash there."

YOUNG MAN—"I understand you want a young man to help edit your paper." Editor—"Yes, sir; have you had any experience?" Young Man—"I have taken one term in journalism at the Cornell University, and—" Editor—"That will do. You may take my desk and go to work and I'll go and run the elevator. Please be as kind to the rest of the staff as you can."

JONES and Brown were talking lately of a young clergyman whose preaching they had heard that day. The sermon was like a man mentioned in a certain biography—"very poor and very pious."

"What do you think of him?" asked Brown. "I think," said Jones, "he did much better two years ago." "Why, he didn't preach then," said Brown.

COMMERCIAL CLIPPINGS.

THE bee industry is quite important in Ireland. About 30,000 swarms were kept last year, producing some 500,000 pounds of honey. Ulster county is the center of this business.

THE English market is largely supplied with Danish butter furnished by the co-operative creameries of that highly-cultivated country. English farmers are greatly alarmed at this competition, although twenty per cent. of the receipts for Danish butter are required to pay the transportation and selling charges.

ITALY refuses to admit grape plants from countries which, like the United States, have not adhered to the rules of the anti-phyloxera convention at Bern. Shipments to that country must be accompanied by an officially-certified statement to the effect that the plants are from earth that is at least twenty meters distant from any old vine; that such earth does not contain any vine, and that no vines have been deposited in it; thus making it impossible for young plants to be contaminated by the phylloxera.

THE Metropolitan Trading Association is the name of a new company recently formed in London for the purpose of developing the dead-meat trade between America and England. This trade is already very large, the export of fresh beef from this country to Great Britain alone exceeding eleven and one-half million dollars annually. The new company will ship direct from Galveston, Texas, to London, by specially chartered and fitted steamers, thus avoiding all the risk and half the expense of transit by mail steamers.

FROM a report recently published in Connecticut concerning the oyster business in that State, it appears that it is much more remunerative than any of the other large and established industries. There is a capital of \$3,929,311 invested in the oyster trade; the receipts are \$1,293,146, and when the wages of 1,024 employees and other expenses are deducted there appears to be an actual profit of about 25 per cent for the year 1888. The largest receipts, \$439,070, were from opened oysters. Shell oysters for the domestic market brought in \$241,237, but shell oysters for export brought Connecticut oystermen \$264,474.

OWING to the existing law in France which allows farmers and fruit-growers to distill alcohol from the fruit grown on their property without any license or supervision by revenue officers, the production of pure brandy has greatly diminished, while the adulterated product is very plentiful. The production of alcohol from wine has fallen in still larger proportion, one gallon being made where seventeen gallons were produced in 1876, and brandy is being made from treacle, beet-root, potatoes, etc. Dried grapes, soaked in boiling water to the point of fermentation, then mixed with Spanish alcohol and some coloring matter, is extensively sold as wine.

Strong Language.

J. B. Langham, ex-mayor of North Des Moines, Iowa, said recently: "I have just recovered from a severe attack of la grippe. I used Chamberlain's Cough Remedy, and applied Chamberlain's Pain Balm to my breast. These remedies were just the thing in my case. My child had coughed some years ago, and we used Chamberlain's Cough Remedy with perfect success, since then we have never been without these medicines in our house. I had a cousin who was a printer and was employed in a job office in this city, where they were printing circulars for Chamberlain. He had a deep-seated cold and a terrible cough, and while setting up the copy he made up his mind to buy a bottle. It cured his cough and that was the first time I ever knew anything of Chamberlain's remedies. I have been strongly influenced by what he said. My own experience and that of my family convince me that these remedies are the best in the world. That may be strong language, but that is what I think." For sale by Shoemaker & Co.

NEVADA'S DELEGATION.

Delegates of Nevada's Silver Convention received at Washington. The Secretary of the recent Silver Convention received at Carson last Saturday the following letter:

WASHINGTON, June 7, 1890.
A. C. Pratt, Esq., Carson Nev.
DEAR SIR—Your dispatch of the 29th ult. was duly received. I am glad that the people of Nevada feel the great importance of the silver fight in which we are engaged. The gold men have been very active during the last month and have brought every influence possible to bear to affect members of Congress. I assure you that the delegates from Nevada are doing all they possibly can to secure the results the people desire. Whether their efforts will be crowned with success remains to be seen. If we fail to get legislation this season the cause is not necessarily lost. The people are now aroused and the fight will go on. We are very anxious, however, to take a step forward before the session expires. The people of our State need relief and need it immediately. Yours truly,
WM. M. STEWART.

NEW "CHRONICLE" BUILDING.

Which has cost H. M. De Young a Million Dollars. A San Francisco dispatch of the 16th inst. says: The new Chronicle building, one of the largest and most complete structures on the Pacific Coast, was thrown open to public inspection to-night. It has been under construction for over a year past and its builder, M. H. De Young, proprietor of the Chronicle, has spent about \$1,000,000 upon it. The edifice is ten stories in height, and has a frontage of 93 feet on Market and Geary streets. Brilliant fireworks and the finest electrical illuminations ever witnessed on the coast were displayed from the roof and sides of the building to-night. Great crowds of people filled the street on all sides of the building and gave repeated cheers. The proprietor had sent out several thousand invitations to friends and patrons of the paper. The first issue of the Chronicle will be printed in the new building next Saturday.

Some Good Scores.

The Carson Tribune of the 16th inst. says: There was a good turnout to the Carson Guard Range yesterday, principally of the younger members. The following scores were made:

HOW TO ADVERTISE.

What John Wamannaker Has to Say About It.

John Wamannaker is one of the most successful merchants this country has ever produced. If there is one thing he knows more than another it is advertising, and this is what he says about it:

"I never in my life used such a thing as a poster, a dodger or a hand bill. My plan for fifteen years has been to buy so much space in a newspaper and let it with what I wanted. I would not give an advertisement in a newspaper of 400 circulation for a news-dodger or poster. If I wanted to sell cheap jewelry or run a lottery scheme I might use posters, but I wouldn't insult a decent reading public with hand bills."

That tired feeling, so subtle and yet so overpowering, is entirely overcome by Hood's Sarsaparilla, which tones and strengthens the system and gives a good appetite. Be sure to get Hood's Sarsaparilla. "100 doses one dollar" is true only of this peculiar medicine.

Somebody Tells Somebody.

Dr. B. Hamlin, of Lenore, Cal., says a few dozen bottles of Chamberlain's Cough Remedy which he sold there created such a demand for the remedy that he could not well do without it. Those who use it find it so much superior to any other remedy they have ever tried that they recommend it to their friends, and that is what makes it so popular. For sale by Shoemaker & Co.

A RESURRECTED INDIAN.

His Squaw Buries Him Alive So She Can Attend a Fandango.

The Pioche Record relates that in riding through Eagle Valley, Lincoln county, recently, a rancher was attracted by a peculiar moaning sound.

On finding the spot whence it proceeded, he removed some sagebrush and soil and found that an aged Pute Indian, known as Teekaboo, had been buried alive. He summoned some neighboring ranchers, who resurrected the Indian from the grave, and it was then ascertained that he had been buried alive by his squaw, who had been left to take care of him while the young bucks and squaws were enjoying themselves at a fandango at Paradise.

The old squaw left in charge of the aged Indian, who was an invalid, concluded that he had but a few days to linger anyway and that if she remained with him she would miss the fun at the fandango and the possibility of losing a chance to get another husband, and therefore determined to anticipate her dusky lord's dissolution by at once burying him, which she did, and reached Paradise in time to participate in the fandango festivities.

NEW MINING DISTRICT.

A Recent Discovery Made by a Sheep Herder.

The Idaho Avalanche says: A new mining district has been discovered on Poison Creek, the exact locality of which we are not informed. The lode found is about 40 feet wide, carrying some very rich silver ore, and was discovered by a sheep herder, who informed H. W. Barnes of Orono, when the latter at once went to the lode and had some work performed. Mr. Hyde showed us a piece of the ore, which carried a good deal of metallic silver. The lode lies between granite and slate. There is great excitement in the valley over the discovery, and as a result the country in that vicinity will be thoroughly prospected.

A Bodie Shooting Scrape.

This morning's Virginia Enterprise says: A private letter from Bodie, received in this city yesterday, states that Charles Joodine was shot and killed by John Kelly on the 4th inst. Kelly is a quiet and peaceable man, and the writer of the letter thinks he will have no trouble to get out of the scrape.

Held for Burglary.

John D. Donovan, an old-timer, was committed in default of a \$500 bond to answer the charge of burglarizing John Hogan's room last Saturday night and stealing therefrom about \$16 in coin.

A DOCTOR'S REBUKE.

Immensely More Machief than is Generally Suspected.

Dr. King, the eminent medical writer, in a learned dissertation on our national complaint, constipation, says:

"The great quantity of cathartic pills, etc., which are taken by the people of this country is a proof of the fact that the chief cause of constipation is not the man, but the physic which he takes. The action of these pills is to give peristaltic motion, so that, instead of removing costiveness, it aggravates it, leaving the bowels in a more torpid condition."

Joy's Vegetable Sarsaparilla was designed to fill just such a contingency as the doctor's arrangement anticipates, viz.: instead of being a powerful mineral purgative, it is a mild vegetable laxative, that, owing to its solvent and gentle stimulating properties, is so certain a relief to constipation that it is as good as a cure for it, and is so mild that, unlike drastic purgatives, it can be taken indefinitely with perfect safety.
